

## NEW Fuseables™ Multi-Pellets Lets You Grow Instant Mixed Containers

*First-ever professional-quality, single-species and multi-species multi-pelleted seed.*

WEST CHICAGO, IL – PanAmerican Seed is taking a giant leap beyond ordinary combos! The company's new **Fuseables™** line of multi-pelleted seed delivers a more natural-looking mix of plants that grow well together, then look great at retail and all through the gardening season. Tried and tested in the lab and in the greenhouse, Fuseables makes sowing and growing easier.

"The multi-pellets produce instant mixed containers," says Laurence Pallez, product manager for PanAmerican Seed. "Every plug tray will contain a well-balanced variety mix across the tray, yet each plug will be unique." According to PanAmerican Seed, Fuseables is the first-ever professional-quality, single-species and multi-species multi-pellet seed.

The Fuseables line is now available in NEW Twisted Dart Juncus and Twisted Arrows Juncus, as well as 9 single- and multi-species Fuseables flower combinations:

- **Blues Brothers** (Lobelia): Riviera Mid blue / Crystal Palace
- **White Knights** (Lobelia): Riviera White / White Lady
